'SARANSH' is a tool for comprehensive self review and analysis for CBSE affiliated schools and parents of students of these schools. It was launched on 07.11.2015 in schools affiliated to CBSE including Kendriya Vidyalayas from classes 9 to 12. 'SARANSH' brings schools, teachers and parents closer, so that they can monitor and analyse the progress of students and help them improve their performance.
The services of Shaala Darpan helps the parents to keep them informed of the attendance of their wards in case they are not present in the school. Besides this, other services like access to class schedules, examination schedules and results, on-line learning resources, interaction with teachers, access to on-line admissions etc. are being provided through Shaala Darpan.

'SARANSH' enables parents and teachers to have one on one interaction regarding their child's performance and overall growth. Parents also get notifications from school/teacher on various activities and topics of interest. It also helps to compare the performance vis-Ã -vis all CBSE schools at various levels and also helps parents to compare their ward's performance within school, state, region and national level.
